

Please mark your calendars for Wednesday, March 10th 2010 where we will be joined by Dr. Lynn Miller in the Linda Hamer Theatre at 6:30pm to discuss:

“The Prevention and Early Intervention of Child Anxiety Disorders in School Settings”.

Lynn Miller, Ph. D., R. Psych., is an Assistant Professor in the Education and Counseling Psychology and Special Education department at UBC and has visited Mulgrave for several years. She has several grants, including a Canadian Institutes of Health Research (CIHR) grant, examining the effects of an empirically supported approach to child anxiety in schools. She has a private practice working with children who have anxiety disorders and their families.

Dr. Miller has long been interested in helping children be more successful in school settings, understanding that the social emotional health of students directly affects academic performance from Grades K-12. As more pressures in school life can have a direct influence on our children’s behavior, Dr Miller will offer a seminar about some of those pressures and how best to alleviate them. She will also be offering a Q & A segment to address some of your concerns.

Our school counselor, Megan Collins, will also be joining us to answer any issues directly related to Mulgrave school.

Please join us on **March 10th at 6:30pm in the Linda Hamer Theatre.**

Entrance fee: \$10 on the evening.
