at 7:00 am**
**Please fax (604-922-3328), post or deliver this form to reach
the school no later than March 31, 2010**

Notes

Group One:

- In Grade 11, students must select either English HL 11 or English SL 11. The English Department reserves the right to place students in English SL 11 should their academic achievement in Grade 10 indicate that SL is the more appropriate course.

Group Two:

- Students must have completed Mandarin 10 to take Mandarin SL/HL 11.
- Students who have received more than one year of formal studies in Mandarin or Spanish are not eligible for ab initio Mandarin and Spanish.
- Students must have completed French 10 Honours to take French SL/HL 11.

Group Three:

- Students who choose to take Economics SL will write the Social Studies 11 provincial examination by April 2011 to satisfy the Province of British Columbia graduation requirements.

Group Four:

- Students planning on taking Engineering at University must complete Physics and Chemistry in G11 and G12. Math HL and Physics HL are highly recommended.
- Students planning on taking Sciences at University must remember that G11 Physics and G11 Chemistry are required for UBC Sciences.

Group Five:

- Mathematics SL (not Math Studies) is a requirement for students entering Science, Business, Psychology, IT and related fields at university.
- Students wanting to take Mathematics HL must receive approval from the Mathematics Department.
- Math Studies is a non-science preparatory course for university. Students entering the Humanities, Arts, Fine Arts and Music may take this course.

Group Six:

- Students may “opt out” of Group 6 courses to take an additional Group 4 course provided that they are involved in other areas of the Arts. Students must complete the “IB Group Six Change Request” form to “opt out” and obtain approval from the Head of Fine Arts and the Assistant Head, Academics.
